

# FourColor

FourColor Process transfers

With "Rush option" available

## FourColor | standard

**FourColor** process is a CMYK screen-printed transfer born of the union between offset printing and traditional screen-printing. Offset offers a photo-quality printing and an unlimited number of colors.

The thin lines printing is remarkable.

This multiple color transfer is made of a white opaque undercoat and a transparent coat with powder glue, that make it very elastic and opaque.

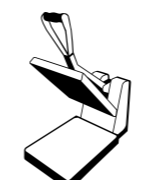

The glue in overflow makes the application easy and insures a high washing resistance.

FourColor process can be put on many sorts of textile, light or dark.

### CHARACTERISTICS AND ADVANTAGES

- High quality marking
- Very elastic
- Thin lines and detail printing
- Unlimited number of colors
- High washing resistance
- Ironable

Delivered size	Combined sheet size A3, A4, A5, A6, A7, A8		
Leadtime	3-5 working days		
Applications	T-shirts, sweatshirts, caps, vests, parkas, windbreaks, umbrellas, tote bags...		
Washing			
Press conditions			
<b>Cotton</b>	170-180°C	8-10 Sec. Cold peel	3.5 bars (HIX= 50psi) Average pressure
<b>Polyamide, polyester, others...</b>	130-140°C	20-25 Sec. Cold peel	3.5 bars (HIX= 50psi) Average pressure
