

OneColorWhite

1 single color transfers

OneColorWhite | economic

The **OneColor White** is a transfer made entirely in screenprinting, without overflow of glue. The ink is quite opaque and transfers can be applied on any textile color. It is ideal for the most traditional materials such as cotton or polyester, but is not always suitable for technical fabrics such as windbreakers, caps, nylon...

For technical fabrics, prefer the **Superwhite** technique, which is perfectly suited to this type of requirement.

- CHARACTERISTICS AND ADVANTAGES**
- No glue overflow
 - Can be pressed on any textile color
 - Elegant finishing stages and precise details (0.3 mm max)
 - Elastic
 - Soft feeling
 - Washing resistant
 - Ironable

Delivered size	Combined sheet size A3, A4, A5, A6, A7, A8		
Leadtime	3-5 working days		
Applications	Light clothes, cotton or polyester accessories : t-shirt, sweater, scarf...		
Washing			
Press conditions			
Cotton	170-180°C	8-10 Sec. Cold peel	3.5 bars (HIX= 50psi) Average pressure
